

Questions from the Discussion pack

Please use these questions, along with the sciencehorizons discussion pack, CD-ROM or website to structure your group's discussion about the stories in the theme you are discussing.

You do not have to discuss the stories in any particular order, but we would like you to discuss all four stories in the theme, so try and manage your time to allow you to do this.

Discussion tips:

You may want to ask each person to give their views, and then see if the group can agree an answer to write on the reply form. If you cannot agree, please make a note on the reply form of the different points made.

The stories show just some of the ways new technology could be used in the future. When discussing the questions, you might like to think about other ways the technologies in the stories could be used, and give us your views.

Please discuss the following questions about all four stories and record your answers on the paper or online form:

1. What do you like about the technology in the story, and why?
Please list all the things people in the group like.

2. What do you dislike about the technology in the story, and why?
Please list all the things people in the group dislike.

3. Of the things you either like or dislike, which is the most important?
Try to agree as a group- if you cannot agree, please explain why.

Please discuss the general question:

13. What else would you like to say about the stories in this theme, or about the pack in general?

Make sure you have filled in the rest of the form!

Tell Us About Your Group

Organisation type (please place a cross in the box):

School/College
University
Health Interest Group
Science/Technology Interest Group
Environment Interest Group
Other - please specify:

Name of your group:

Number of people who took part:

We will be mapping where in the UK discussions have taken place. Please tell us the postcode of the place where you had the discussion. We will not use this information to contact you.

Postcode:

Keep in Touch

If you would like to be notified when the results of all the sciencehorizons discussions are available, please supply contact details for one member of the group.

Title:

E-mail:

First name:

Address:

Surname:

Postcode:

We would like to be able to contact you to ask you how the discussion went. Of you do not want us to contact you for this reason please place a cross in the box.

Send us your views

Please visit www.sciencehorizons.org.uk to enter the results of your discussions online. You can also use the website to request more packs, to get further information about the project and read the results of all the discussions. If you are unable to enter the results online you can send your response forms to sciencehorizons:
